DETAILED ACTION

1. Applicant's amendment of 6/18/2007 has been entered.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Independent claim 1 of applicant's 6/18/2007 Amendment is patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including a rotation drive mechanism control section for controlling the rotation drive mechanism so as to allow the plate suction section and the support section to pivot, in accordance with a predetermined rotation drive pattern table, at a pivot angle in association with a linear motion position of the support section in the plate transport direction, wherein the rotation drive pattern table, which defines the pivot angle of the plate suction section and the support section in association with the linear motion position of the support section in the plate transport direction, and of which a plurality are prepared, is adapted to the plates expected to be stored in the storage section; and the rotation drive pattern table selected from the plurality of the rotation drive pattern tables is used, based on plate information indicating various information relating to the plate, by the rotation drive mechanism control section.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
